Special issue: Second Messengers

Publisher's note v

Foreword xi

The preparation of intermediates for the synthesis of 1D-*myo*-inositol 1,4,5-trisphosphate, a second messenger for signal transduction in cells
T. Desai, J. Gigg, R. Gigg, S. Payne and S. Penades (London, United Kingdom) 1

Synthesis of diacylglycerol analogues as potential second-messenger antagonists and inhibitors of protein kinase C
J.C. Briggs, A.H. Haines, R.J.K. Taylor, A.P. Dawson, I. Gibson, J. Hook, A. Lloyd and S. Meiners (Norwich, United Kingdom) 23

Synthesis of racemic 5-phosphonate analogues of *myo*-inositol 1,4,5-tris- and 1,3,4,5-tetrakis-phosphate
C.E. Dreef, J.-P. Jansze, C.J.J. Elie, G.A. Van der Marel and J.H. Van Boom (Leiden, Netherlands) 37

An efficient chemoenzymic access to optically active *myo*-inositol polyphosphates
D.-M. Gou, Y.-C. Liu and C.-S. Chen (Kingston, RI, USA) 51

New tetherable derivatives of *myo*-inositol 2,4,5- and 1,3,4-trisphosphates
J.F. Marecek, V.A. Estevez and G.D. Prestwich (Stony Brook, NY, USA) 65

Stereoselective synthesis of glycobiosyl phosphatidylinositol, a part structure of the glycosyl-phosphatidylinositol (GPI) anchor of *Trypanosoma brucei*
C. Murakata (Saitama, Japan) and T. Ogawa (Tokyo, Japan) 75

Building blocks for the synthesis of glycosyl-*myo*-inositols involved in the insulin intracellular signalling process
A. Zapata and M. Martín-Lomas (Madrid, Spain) 93

Synthesis from quebrachitol of 1L-*chiro*-inositol 2,3,5-trisphosphate, an inhibitor of the enzymes of 1D-*myo*-inositol 1,4,5-trisphosphate metabolism
C. Liu (Bath, United Kingdom), S.R. Nahorski (Leicester, United Kingdom) and B.V.L. Potter (Bath, United Kingdom) 107

Lewis acid-catalysed rearrangements of *myo*-inositol orthoformate derivatives
I.H. Gilbert, A.B. Holmes, M.J. Pestchanker (Cambridge, United Kingdom) and R.C. Young (Welwyn, United Kingdom) 117

Synthesis of analogues of *myo*-inositol 1,4,5-trisphosphate that contain sulfonamide, sulfate, methylphosphonate, and carboxymethyl groups
P. Westerduin, H.A.M. Willems and C.A.A. Van Boeckel (Oss, Netherlands) 131

Nucleoside cyclic 3′,5′-phosphates: chair–twist equilibria of the phosphate rings of methyl phosphate and phenylphosphonate derivatives of cTMP
K.A. Nelson and W.G. Bentrude (Salt Lake City, UT, USA) 141

The preparation of phosphorylated intermediates for the synthesis of racemic and chiral *myo*-inositol 1,4,5-trisphosphate and its phosphorothioate analogues
T. Desai, A. Fernandez-Mayoralas, J. Gigg, R. Gigg and S. Payne (London, United Kingdom) 157

Synthesis of (±)-*myo*-inositol 1,4,5-trisphosphate and the novel analogue (±)-*myo*-inositol 1,4-bisphosphate 5-phosphorothioate
N.J. Noble, A.M. Cooke and B.V.L. Potter (Leicester, United Kingdom) 177

Synthesis and biological properties of 2-substituted *myo*-inositol 1,4,5-trisphosphate analogues directed toward affinity chromatography and photoaffinity labeling
S. Ozaki, Y. Watanabe, T. Ogasawara (Matsuyama, Japan), M. Hirata and T. Kanematsu (Fukuoka, Japan) 189

Synthesis of racemic 6-deoxy-6-fluoro-*chiro*-inositol 2,3,5-trisphosphate
H.A.J. Carless and K. Busia (London, United Kingdom) 207

Derivatives of 1-β-D-ribofuranosylbenzimidazole 3′,5′-phosphate that mimic the actions of adenosine 3′,5′-phosphate (cAMP) and guanosine 3′,5′-phosphate (cGMP)
H.-G. Genieser, E. Winkler, E. Butt, M. Zorn, S. Schulz, F. Iwitzki, R. Störmann (Bremen, Germany), B. Jastorff, S.O. Døskeland, D. Øgreid (Bergen, Norway), S. Ruchaud and M. Lanotte (Paris, France) 217

The role of the 2- and 3-hydroxyl groups of 1D-*myo*-inositol 1,4,5-trisphosphate in the mobilisation of calcium from permeabilised human 1321N1 astrocytoma cells
R.A. Wilcox, S.R. Nahorski, D.A. Sawyer, C. Liu and B.V.L. Potter (Leicester, United Kingdom) 237

Phosphoinositol diphosphates: non-enzymic formation in vitro and occurrence in vivo in the cellular slime mold *Dictyostelium*
G.W. Mayr, T. Radenberg (Bochum, Germany), U. Thiel, G. Vogel (Wuppertal, Germany) and L.R. Stephens (Cambridge, United Kingdom) 247

Note
The synthesis of 2-*O*-alkyl-*myo*-inositol 1-phosphates as competitive inhibitors of inositol monophosphatase
M.G.N. Russell, R. Baker and D.C. Billington (Harlow, United Kingdom) 263
